}
```

Response

The API response will indicate the success of the registration process.

Sample Success Response:

```
{  
  "message": "Registration Successful"  
}
```

Processing Steps:

- Check if the provided email is in the list of blocked emails. If so, block the registration.
- Update counts for the classes based on the provided class details.
- Send confirmation email and calendar invites to the user.
- Send confirmation email to the admin with user and location details.
- Send confirmation email to the teacher and calendar invite if applicable
- Create and schedule WhatsApp/Email reminders.
- Save the enrollment details and parent information in the database/Sheets.
